High Tech Campus Eindhoven | The Strip | 2024

# PREFACE

## **Connecting people through food**

That's our mission! With delicious and healthy food and drinks, we aim to provide the best experience on campus every day. People perform at their best when there's a good balance between work and relaxation. In addition to catering to these moments, we're committed to collaborating with you to create a better environment and shape the future of our planet. Health, sustainability, and reducing food waste are central to the food and drinks we offer. These values are therefore important pillars highlighted in this brochure.

## **Health and Sustainability**

As far as we're concerned, being healthy for ourselves goes hand in hand with being healthy for the world. Shockingly, up to 30% of all fresh food worldwide goes to waste. The banqueting industry is no exception. A banqueting menu with a fixed selection significantly impacts our food footprint. That's why we opt to customize our offerings based on what's available in our restaurants and focus on consuming seasonal food. We believe in eating what our bodies require and choosing from what's readily available. Concerned about leftovers after an event? Utilize our food bags.

## **The range**

This folder contains a selection of the most common banqueting options. You can also reach out to us for special requests. We're happy to advise you on menu and dish compositions and are specialists in organizing receptions, dinners, and other events.
